SS GENERAL CONVICTED OF MASS DEATHS

MUNICH, Germany (AP) -A German court convicted former SS Gen. Karl Wolff, 64, of aiding in the wartime murder of 300,000 Jews in Poland and sentenced him to 15 years at hard labor

The former Nazi officer was pale but stood ramrod straight as he heard the court read the verdict. The prosecution had asked life imprisonment, the maximum sentence since West Germany abandoned capital punishment in 1949.

WAS ADJUTANT

Wolff had been adjutant to Heinrich Himmler, leader of the SS, and at one time was Himmler's top liaison man with Hitler. The prosecution charged that he was a member of the Nazi brain trust which planned the extermination of the Jews.

Wolff pleaded innocence and claimed he did not learn of the Nazi murder of the Jews until after the war.

The West German government arrested him in January 1962, and kept him in confinement until his trial opened July

SSGENERAL CONVICTED OF

MUNICH, Germany (AP) A German court convicted former SS Gen. Karl Wolff, 64, of aiding in the wartime murder of 300,000 Jews in Poland and sentenced him to 15 years at hard labor.

The former Nazi officer was pale but stood ramrod straight as he heard the court read the verdict. The prosecution had asked life imprisonment, the maximum sentence since West Germany abandoned capital punishment in 1949. WAS ADJUTANT

Wolff had been adjutant to Heinrich Himmler, leader of the SS, and at one time was Himmler's top liaison man with Hitler. The prosecution charged that he was a member of the Nazi brain trust which planned the extermination of the Jews.

Wolff pleaded innocence and claimed he did not learn of the Nazi murder of the Jews until after the war.

The West German government arrested him in January Wolfe plan for integrating the

SIX KILLED IN 3-CAR CRASH ON WET ROAD

were killed Tuesday night in a Name crunching collision of three cars on a rain-slicked highway near this Eastern Pennsylvania Township or Borough Lab Fee Lab Fee community.

Three others, including two children, were injured in the crash on a level stretch of Bloomsburg.

State police said rain was falling heavily at the time and a low fog obscured vision on the three-lane road.

MIFFLINVILLE FOLK

They said one of the cars apparently pulled out into the middle lane on the highway and rammed a second car head on. The second car then swung around and hit the rear of a passing automobile, injuring a passenger in it.

State police said the victims were Mrs. Sadie Levan, 48, the James Hippensteel, 14, and all shop courses. Starlene Harter, 17, in a station wagon. All are from Mifflinville, Pa.

Also killed was the driver of the second car, F. Harold Fedder, 57, of Bloomsburg R. D. 5. GIRL SERIOUSLY HURT

Sally, 10, was taken to Bloomsburg Hospital in serious condition.

Mrs. Flora Lyons, 40, of Millville, Pa., a passenger in the third car, suffered a minor hip fnjury. Her husband, Grant, who was driving, was not hurt, police reported.

Questioned by police, the Lyonses said they saw the Fedder car pull out suddenly into the middle lane of the concrete highway and crash into the Levan station wagon.

Because of the heavy rain, few persons stopped at the scene. Some truckers, however, stopped to give policemen blan-Kets to protect the bodies from returned home from an extended Nov. 16. the downpour.

Answer to yesterday's puzzle.

Average time of solution: 31 minutes.

(C 1964, King Features Synd., Inc.)

CRYPTOQUIPS

lovely writes: I would like some information about the new nail hardeners, before I invest. How does the product work? What is the reason for the fingertip ap-

plication shield? Is use compli cated?

The Answer: Some five years ago, the original nail hardener was introduced to the countries of Europe by a team of Swiss chemists. The same formula is now available to American women. It comes backed by proof of safety, having met the import entrance requirements of the Food and Drug Administration.

Newly marketed, American products are proving successful. All hardeners of this kind are packaged with a shield. This is to prevent an overflow onto the skin. Just as some skins are allergic to various cosmetics, some may be sentitive to the ingredients in hardeners. The shield is a precautionary measure, although not a guarantee against sensitivity. If a reaction should occur, use naturally is discontinued.

An application renders the tip of the nail instantly diamond-hard. This, of course, is a long awaited boon for women with soft or brittle break-off nails. To apply, you simply remove any polish, slip on the shield and coat the white tip of the nail. Drying time is quick and fresh polish may be brushed on subsequently. By warding off splits and breaks, applications obtain to lovelier nails.
